

## Hotel intelligent card lock, release your metal key with keycard

### model: S118

- Power Supply: DC4.8V-6.5V, 1.5V LR6(AA) alkaline battery\*4pcs;
- Static Current: < 10 $\mu$ A;
- Dynamic Current: <120mA;
- Store Temperature: -20~+85°C;
- Store Humidity: 10~90% RH;
- Working Temperature: -10~+60°C;
- Working Humidity: 15~90% RH;
- Operating Frequency: MF series:13.56MHz(Mifare card);  
All-IN-ONE card reservation: Mifare1 S70 available;
- Working Frequency: 13.56MHz;  
Card reading distance: 0-35mm;
- Weight: 3kg(M3 mortise); 3.2kg(M1 mortise)
- Self-locking: After reading card, if the handle isn't turned within 3 seconds, the door will lock itself automatically;
- Low Voltage Warning: If power supply is less than 4.7V, the LED will flash red and blue, buzzer will make sound when unlocking the door. Then it can be unlocked for another 50-100 times before batteries' running off.

Features: Bright, Magnificent, Durable, Reliable

Material: Zinc Alloy + Stainless Steel

Finish option: CCR, PVD

Mortise option: M1, suitable for  $\geq 38$ mm thickness doors

M3, suitable for  $\geq 28$ mm thickness doors
